

Motivational Letter

I'm writing to say how very interested I am in **FAU Erlangen's Master of Information and Communication Technology programme**. My name is **Vikram Veer, Singh Sokhi** and I am quite passionate about communication systems and technology. Together with my excellent analytical abilities, my academic path and work experience qualify me for this degree. The thorough course at FAU Erlangen will enable me to fulfill my professional objectives and benefit the field of Information and Communication Technology.

From the Central Board of Secondary Education in 2014, I finished my tenth grade with a **7.0 CGPA (German Grade: 2.5)**, and in 2016 I finished my twelve grade with a **76.2% German Grade: 2.0**. In 2020 I saw my **Bachelor of Technology (Electrical & Electronics Engineering)** with a **CGPA of 8.51 (German Grade: 1.7)**. Working since March 2021, my professional experience at **HCL Technologies Limited** has enhanced my academic path even more. I have also **interned at Power Grid Corporation of India Limited and the Defence Research & Development Organisation**, where I learned a lot about data analysis and machine learning. Having an **aggregate score of 7.5 bands**, I passed the **IELTS test** as well and satisfy the eligibility criteria for this program. Also I have participated in many extracurricular activities like **10 Km Run Manesar Half Marathon, National Marathon Championship – 2023, n 30 Km Decathlon Cycling Utsav** etc.

Why would one pursue Master's Program in Information and Communication Technology? Selecting FAU Erlangen's Master of Information and Communication Technology degree fits exactly my professional goals. The way the program strikes a mix between theoretical underpinnings and pragmatic uses appeals especially to me. Comprising courses on advanced communication systems, data networks, and information theory, the coursework is meant to provide students the tools required to meet practical problems. During my undergraduate studies, particularly when working on projects connected to VLSI Design and Control Systems, my passion in this discipline was piqued. Working on research projects under the direction of seasoned professors will be a priceless chance to develop my knowledge and research abilities.

FAU Erlangen: For a number of factors, FAU Erlangen is my first choice university. Together with its first-rate facilities, the university's great emphasis on research gives a perfect setting for both academic and career development. Especially interesting is the multidisciplinary approach of the Information and Communication Technology curriculum, which combines elements of computer science, electrical engineering, and communication technology. Furthermore, the university's partnerships with business leaders and active academic community present many chances for professional growth and networking. FAU Erlangen offers a broad cultural and intellectual experience with more than 39,000 students from a varied backgrounds.

For Germany: Germany's great standing for engineering and technological education drives me to apply there. Since field education in Germany is significantly better than elsewhere, I plan to remain in Germany. I wish to be among the rich German culture, diversity, and good exposure. Germany's great focus on research and creativity helped me decide on it for my Master's degree. Studying in Germany will enable me to develop personally and professionally alike. Germany's history, culture, and dedication to supporting worldwide talent really captivate me.

Prospective Future Jobs: My MSc in Information and Communication Technology will provide me a lot of professional options. I want to be in roles including information technology consultant, network analyst, or communication systems engineer. Working in Germany interests me especially as the ICT professional employment market is strong. This degree will equip me with the knowledge and abilities needed for a successful career in the ICT sector, so enabling me to help to drive technological innovation and development.

In the end: Finally, I am excited to bring FAU Erlangen my academic background, work experience, love of information and communication technology. The Master's degree in Information and Communication Technology will equip me with the knowledge and abilities required to succeed in this quickly changing sector. I am sure of it I am dedicated to significantly benefiting the university and the larger ICT community, hence I kindly ask the admissions committee to review my application positively.

I value your giving my application some thought. The chance to grow and help FAU Erlangen excites me.

Sincere,
Vikram Veer, Singh Sokhi
